Newport Craquelè & Transparent

LA SINGOLARITÀ DEI NOSTRI PRODOTTI

Senio Atelier presenta la nuova collezione, in bicottura da rivestimento, nel formato rettangolare di cm 6,5 x 26, estremamente contemporaneo, disponibile in due diverse superfici: craquelè e transparent.

La gamma degli smalti è composta da 12 colori soft con i quali è possibile disegnare ambienti unici, come se si attingesse dalla tavolozza di un pittore.

L'irregolarità della fusione dello smalto e del craquelé fa sì che ogni pezzosia differente dagli altri e ciò rende ogni ambiente esclusivo e dinamico.

La collezione è arricchita da mosaici, pezzi speciali e listelli realizzati a mano per mantenere vivo l'antico principio secondo cui il lavoro dell'uomo, con il suo intervento, rende unica ogni fase del processo produttivo.

THE UNIQUENESS OF OUR PRODUCTS

Senio Atelier presents Newport, a new double fire wall tile collection in the very contemporary rectangular size 6,5x26 and available in two finishing: Crackle and Transparent.

The range consists of 12 subtle colours with which it is possible to create unique effects as if drawn from the artiste's palette.

Due to the individuality of the glaze reaction and the crackle, each piece is unique and individual, resulting in a dynamic and exclusive ambiance. The collection is enhanced by mosaics and special hand made pieces, pieces produced according to the principle that the human hands lends individuality to each phase of the production process.

Newport Caratteristiche tecniche

PROCESSO PRODUTTIVO

La collezione Newport è stata ideata, progettata e realizzata, esclusivamente in Italia, con la tecnologia della Bicottura tradizionale. Questa comporta cicli di cottura di 10/12 ore che permettono di ottenere superfici e colori brillanti dalle raffinate qualità estetiche.

Con l'ausilio di macchine, solo dov'è necessario, conserviamo la tradizione e un procedimento artigianale che fornisce ad ogni processo industriale un valore unico. Ogni Listello e pezzo speciale, infatti, è stato progettato e realizzato a mano come fosse una scultura, solo in seguito sono stati realizzati gli stampi usati per la pressatura ad umido.

Formati modulari, mosaici e pezzi speciali fanno di questa collezione un ottimo strumento di progettazione per soddisfare la fantasia e la personalizzazione.

Ceramica Seuro

Technical features

PRODUCTION PROCESS

The Newport collection is 100% Italian designed, developed and realised using traditional double-fire technology. This production process requires a production cycle of 10/12 hours which gives gloss surfaces and bright colours of refined aesthetic quality.

Machinery is used only when necessary, thus preserving our tradition and an handcrafted process resulting in the unique quality of each industrial process. The prototype of each listello or special piece is designed and realized as a hand sculptured item and only after this is the mould for casting made.

Modular sizes, mosaics and special pieces make this collection an excellent designing tool for creative and customized design.
